

WORLD LIVING WATER SYSTEMS LTD.

# The Vortex Water Revitalizer

## Models For Filters

### Suitable for under or over the counter:

- Filters
- Distillers
- Reverse Osmosis Systems
- Ionizers or Alkalizers

### Standard Filter Vortex Water Revitalizer

Connects to your existing water treatment system to treat and improve the taste, feel and quality of pre-treated water.

### River of Life Vortex Water Revitalizer for Filters

Connects to an existing water treatment system to treat and improve the quality of pre-treated water. The River of Life's design allows for an added river dynamic, which better simulates the natural movement of water and allows for optimal benefits.

### Why Revitalize your treated water?

Other water treatment systems clean and purify water, but they also put water through unnatural processes, which leave water stripped of many of its important natural properties. The Vortex Water Revitalizer will restore the natural health, structure and vitality to treated water. Revitalized Water is instantly absorbed by one's body and is much more enjoyable to drink.

**The taste of the water from my reverse osmosis system has improved dramatically. My drinking water has never been this good!**

- Eric van der Wyk, California, USA

**Come with a 60-Day Money Back Guarantee and a 10-Year Limited Warranty.**
